

MULTILABEL - highly productive finishing machine for single lane labels

Multilabel is highly productive finishing machine.

Multilabel is equipped with colour touch screen, automatic tension control, label/meter/diameter counter and Sentinel print inspection system.

The nip roll permits a perfect rewinding and speed management , automatic diameter calculation and excellent tension.

Tension is controlled depending on the reel diameter.

The ergonomic design of Multilabel allows you to select your choice of operating position - standing or sitting.

The fully integrated Sentinel vision inspection system guarantee a final product without printing defect.

Multilabel is fully prepared to integrate a numbering inkjet system.
