

**SATURN OMNIA**

The ultimate in flexibility to adapt to a fast-moving market,
able to handle all label and fl exible packaging types.

Multiuse finishing platform

SATURN Omnia is all about market-oriented fl exibility for established label converters as well as market newcomers.

Able to handle SA labels, IML, fl exible packaging, A4 sheets and wet glue labels, SATURN Omnia is perfect for customised production runs and multiple label types.

Moreover, different shaped wet glue labels and IML are easily stacked together at the same time. The machine can be equipped with various options depending upon your market needs and Prati technology and SFTW ensure accurate repeatability.

Modular concept, multiuse design, plus FUTURA openplatform technology make SATURN Omnia the wisest single investment ensuring business opportunities that multiply day after day.

TECHNICAL DATASHEET

	TE370	TE400	TE450	
Max. working width	370	400	450	mm
Max. speed for finishing PSL and Unsupported films	300	300	300	m/min
Max speed for in-reg die cutting of PSL	200	200	200	m/min
Max. speed for IML	80	80	80	m/min
Max. speed for sheeting	120	120	120	m/min
Max. unwinder diam.	850	850	850	mm
Min. die-cutting size	305	305	305	mm
Max. die-cutting size	610	610	610	mm
Max. die-cutting width with lateral trims	360	390	440	mm
Max. rewinding diam. on single shaft	600	600	600	mm
Max. rewinding diam. on double shaft	410	410	410	mm
Max matrix rewinding diam.	13	13	13	mm
Minimum slitting width	+/- 0.15	+/- 0.15	+/- 0.15	mm
Min. lateral trim width	1.5	1.5	1.5	mm

Label type: SA paper and plastic labels, PS paper and plastic labels, blow mould labels, wet glue labels, shrink sleeve, wraparound, coupon labels, IML, no label look.
