

THE MOST FLEXIBLE AND AUTOMATED LABEL PRODUCTION SYSTEM IN IT'S CLASS.

Truepress Label 350UV SAI – E: CMYK + WHITE + ORANGE

Truepress Label 350UV – S: CMYK + WHITE + ORANGE + BLUE

Truepress Label 350UV – LM: CMYK + WHITE + ORANGE –LOW MIGRATION INKS

- COLORFUL!**
This is what SAI stands for in Japanese. With CMYK+O+B, **superior colour reproduction** is now achievable. What is even more impressive is that the stability of the SAI device means that the colours will be the same whether you will print them this morning, this afternoon, next week or next year.
- RELIABLE AND ROBUST!**
That is what makes equipment productive. Analysing data from **over 150 installations** of the L350UV+ series worldwide our customers report **uptime in excess of 90%**. Architectural and software improvements being introduced on the **SAI device will enable even greater reliability.**
- TOP CLASS INKS!**
That is what makes equipment productive. Analysing data from **over 150 installations** of the L350UV+ series worldwide our customers report **uptime in excess of 90%**. Architectural and software improvements being introduced on the **SAI device will enable even greater reliability.**
- SCALABLE!**
Entry level devices are available for those who do not need the full functionality straight away, with **options to upgrade** as your business grows. Even with a CMYK configuration you can match around 80% of the spot colours within a Delta E < 3. **Additional heads can be added** when your business is ready for that.
- LOW MIGRATION!**
Labels for food packaging must satisfy strict safety standards. Low Migration ink for SAI LM is fully compliant with the EuPIA Exclusion Policy for Printing Inks and Related Products, the positive list of the Swiss Ordinance and Nestle Guidance for packaging inks.
- ...AND MORE!**
Dual lamp option, optional space for a functional ink, high opacity white, thin substrate support, reduced footprint.
